I certify that the above information is accurate to the best of my knowledge.

Participant Signature \_\_\_\_\_ Parent Signature \_\_\_\_\_

Please return entry packet to Vance County Cooperative Extension at 305 Young Street, Henderson, NC 27536 Attn: 4-H Agent. **Entry Deadline: September 20.**

Name of Participant: \_\_\_\_\_

**Liabilities (everyone sign):** Each exhibitor or buyer assumes all liabilities in cases of sickness, death or injury to his or her animals. Exhibitors are responsible for the feeding, watering and care of their animals during the show and sale. The exhibitor is responsible until the animal is sold and returned and properly tied in the show barn, at which time the buyer assumes liability. The management, exhibitors and owners assume no liability for injury from any cause to individuals or property. There is no policy for compensation for loss of any animals on the farm. The facility owners and the cooperative extension service office in each county shall not be liable for any damages, death, injury, or loss of property incurred by or to any exhibitor. Each exhibitor shall be responsible for any damages, death, injury or loss of property caused by the exhibitor or their animal.

Parent/Guardian Signature \_\_\_\_\_ Date \_\_\_\_\_

**Non-Owner's Certificate (if you don't own your animal):** This non-owner certificate verifies that a 4-H member and the owner of the animal have entered into an agreement to allow the 4-H member to use the specified animal(s) as a 4-H project.

Name of 4-H Member \_\_\_\_\_

Breed(s) of Animal \_\_\_\_\_

Signature of Owner \_\_\_\_\_

**Livestock Disease – Quality Assurance Form (everyone sign):** The animals at the Four County Livestock Show & Sale are raised primarily for meat and milk. As a show, we strive to teach youth and their families about disease control and quality assurance for the food products produced. In order to address concerns about animal health, food safety, and human safety and because of concerns about disease transmission from other countries, we ask that parents please read the information below and sign.

As parent/guardian of (participant) \_\_\_\_\_, I certify that:

1. No show participant or immediate family member has or will have visited a foreign country for at least 2 weeks prior to the show.
2. To my knowledge, no one has visited our farm or animals in the 2-week period prior to the show that has been to a foot and mouth disease positive country. (Please notify show committee on the day of the show if this status has changed.)
3. We understand that there are animal disease risks involved in bringing animals to shows and particularly in taking show animals back home. We understand that it is recommended to vaccinate animals prior to the show for contagious diseases and to quarantine show animals for at least two weeks, away from other animals on your farm when you return home and to then monitor for diseases before re-entry into your herd/flock.
4. We have not used animal health products or antibiotics illegally on our show animals. Drug (antibiotics and vaccine) withdrawal & withholding times have been observed according to label recommendations on any animals treated for illness or fed antibiotics. No unapproved drugs or health products have been administered.
5. Animals have been fed and handled in a humane manner. None of the animals have been fed animal feed made from meat by-products (including pet food.) Male animals have been castrated correctly. No adulteration of physical defects by artificial means other than traditional washing and fitting has been done.
6. I understand that livestock can be a source of serious human diseases such salmonella, E.coli and other animal borne diseases. I understand the risk associated with my children participating in this livestock project, both from disease and from physical injury. I have gone over disease prevention with my child such as the importance of careful hand washing after handling animals, minimizing exposure to fecal material, protecting wounds, and avoiding contact with food around animal areas, etc.
